

LIGHTS ASSEMBLY

1. Lay out all pieces.

Piece Inventory(10 pieces total):

- 1a and 1b
- 2a and 2b
- 3a, 3b, 3c, and 3d
- 4a and 4b

2. Separate the pieces to construct the first light holder

- 1a
- 2b
- 3a and 3b
- 4a

3. Place lights on 1a, secure in place with 2a on top.

No lights pictured

Screw in place

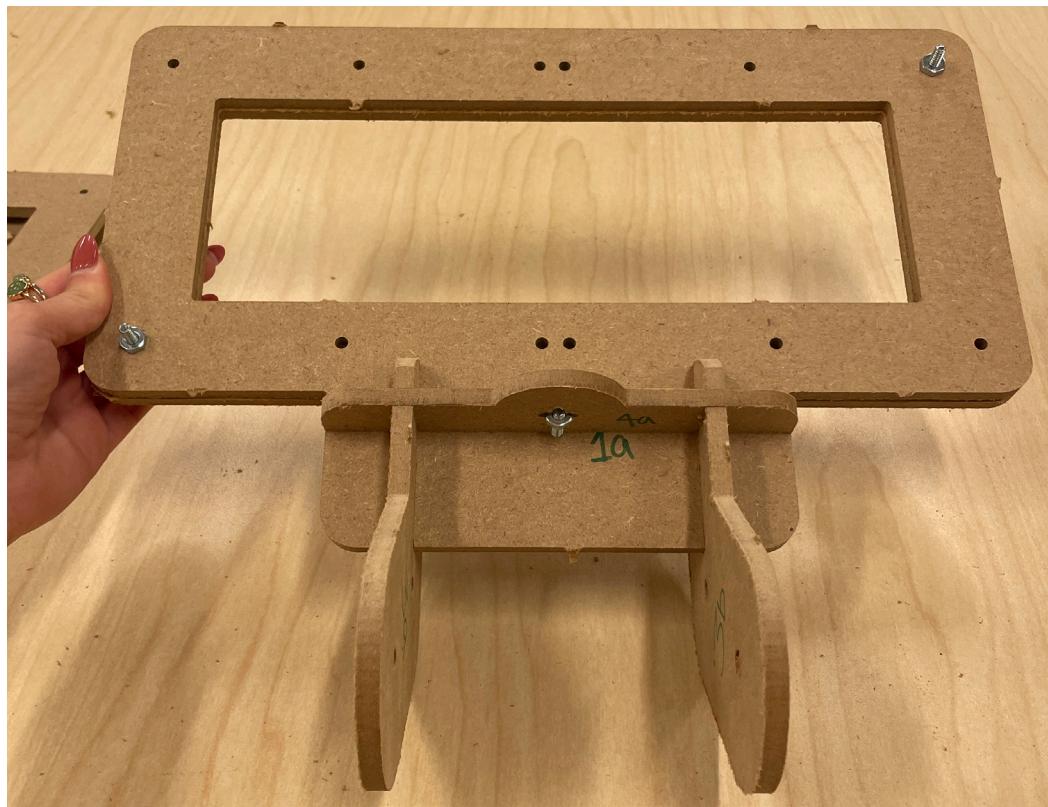

4. Place 3a and 3b in the slots on 1a

5. Place 4a in the slots in 3a and 3b to secure them.

Screw in place

To attach the light frames to the framework, attach pieces 5a and 5b to the top of the framework as pictured to the right. Then attach the lights by the pieces 3a,b,c and d to 5a and b.

Depending on the type of lights you have, you may have to drill additional holes to screw them in place. Secure your lights and tuck the wirtes to the side of the framework (pictured below).
